

Packaging & Shipping of Category A & Category B Infectious Substances: Inclusive of Evidence Control Measures (1031722)

The 2012 Packaging and Shipping online course is live! Learners will need to get approval/register for the course on KS-TRAIN. Once you are approved a packet of materials, and a passcode will be sent to you which are needed to complete the course.

The training materials packet should be received in 1 to 2 business days following your registration. The Kansas Health Environmental Laboratories ship the packets through UPS, and use the location address noted in your KS-TRAIN learner account. Please make sure that this address is correct by clicking the My Account link, right hand side of the KS-TRAIN homepage. Update your account profile and save.

KS TRAIN at <http://ks.train.org>, course ID **1031722**.

New this year:

- All updates for 2012
- The ability to repeat videos
- View the exam questions that you missed at the end of the post-assessment

If you have course questions please contact Shannon Gabel at sgabel@kdheks.gov.
